Summary

Aspiring Machine Learning / AI Engineer and BCA graduate (2026) with a strong foundation in programming (Java, C, C++) and web development (HTML, CSS, JavaScript). Experienced in designing and building interactive, user-focused web applications, with hands-on exposure to AI fundamentals through professional certification. Seeking to apply strong problem-solving skills and a growing foundation in AI/ML to deliver impactful, data-driven solutions.

Technical Skills

- **Programming Languages:** Java, C, C++
- **Web Development:** HTML, CSS, JavaScript
- **Core Competencies:** Object-Oriented Programming, Responsive UI Design, Problem Solving, Version Control Fundamentals

Projects

Music Streaming Application

HTML, CSS, JavaScript

- Designed and developed a dynamic music streaming platform delivering an interactive, responsive user interface.
- Implemented core playback functionality, including play, pause, and playlist management, improving user control and engagement.
- Built modular JavaScript components to manage application state, resulting in smoother, bug-free playback transitions.

Portfolio Website

HTML, CSS, JavaScript

- Designed and developed a fully responsive personal portfolio website to showcase skills, projects, and contact information.
- Applied modern UI design principles to ensure consistent usability and readability across desktop and mobile devices.
- Structured project showcase and contact sections to streamline navigation and improve visitor engagement.

Education

Bachelor of Computer Applications (BCA)

2026

Graphic Era Hill University
CGPA: 7.18

Certifications

- Python for Data Science, AI and Development — IBM
- Introduction to Cybersecurity Awareness
